

Covenant Health 11th Annual Research Day

“Resilience – patient, practitioner, and community, and the potential for transforming health and health care delivery”

Research Day Objectives:

The Covenant Health Research Day provides an opportunity for practitioners, academics and community stakeholders to share and discuss health research in emerging areas: this year, we are focusing on resilience and its potential to transform health outcomes. Feature lecturers from well-established researchers, demonstrating how their research has impacted practice and health outcomes, will help inform and influence our thinking on resilience and the role it plays in healthy patients, families, and workforces.

February 11, 2016
7:30-16:30 hrs
**Grey Nuns Community
Hospital Auditorium**

Keynote Address: David Cruise Malloy, PhD.

Too often, both the needs of patients and the input of staff tend to go unheard and unacknowledged within the vast bureaucracy of our health care institutions. Dr. David Cruise Malloy will discuss how this oversight negatively impacts outcomes for patients, and how we must work to ensure that those receiving care come before the system created to serve them.

Dr. David Cruise Malloy is the Vice President (Research) at the University of Regina, Canada. He is the Principal Investigator for the International Healthcare Ethics Research Team at the University of Regina, the Foreign Director of the International Bioethics Research Institute of Shandong Province, China, the Principal Investigator and Honorary Dean of the Research Institute for Multiculturalism and Applied Philosophy at Hunan University, China, and a Fellow of the American Philosophical Practitioners Association in Client Counselling & Organizational Consulting. Dr. Malloy has served as the Associate Dean in the Faculty of Graduate Studies & Research and in the Faculty of Kinesiology & Health Studies as the Assistant Dean. He serves as an adjudicator for both SSHRC and CIHR; as well he occupies the role of the University's SSHRC Leader.

**Early bird registration fee is \$35.00 prior to January 15, 2016;
after which extra fees will be applicable.**
