

Covenant Health Research Centre (CHRC)

Data pulled from CHRC Operations Report for the **Fiscal Year 2017/2018**

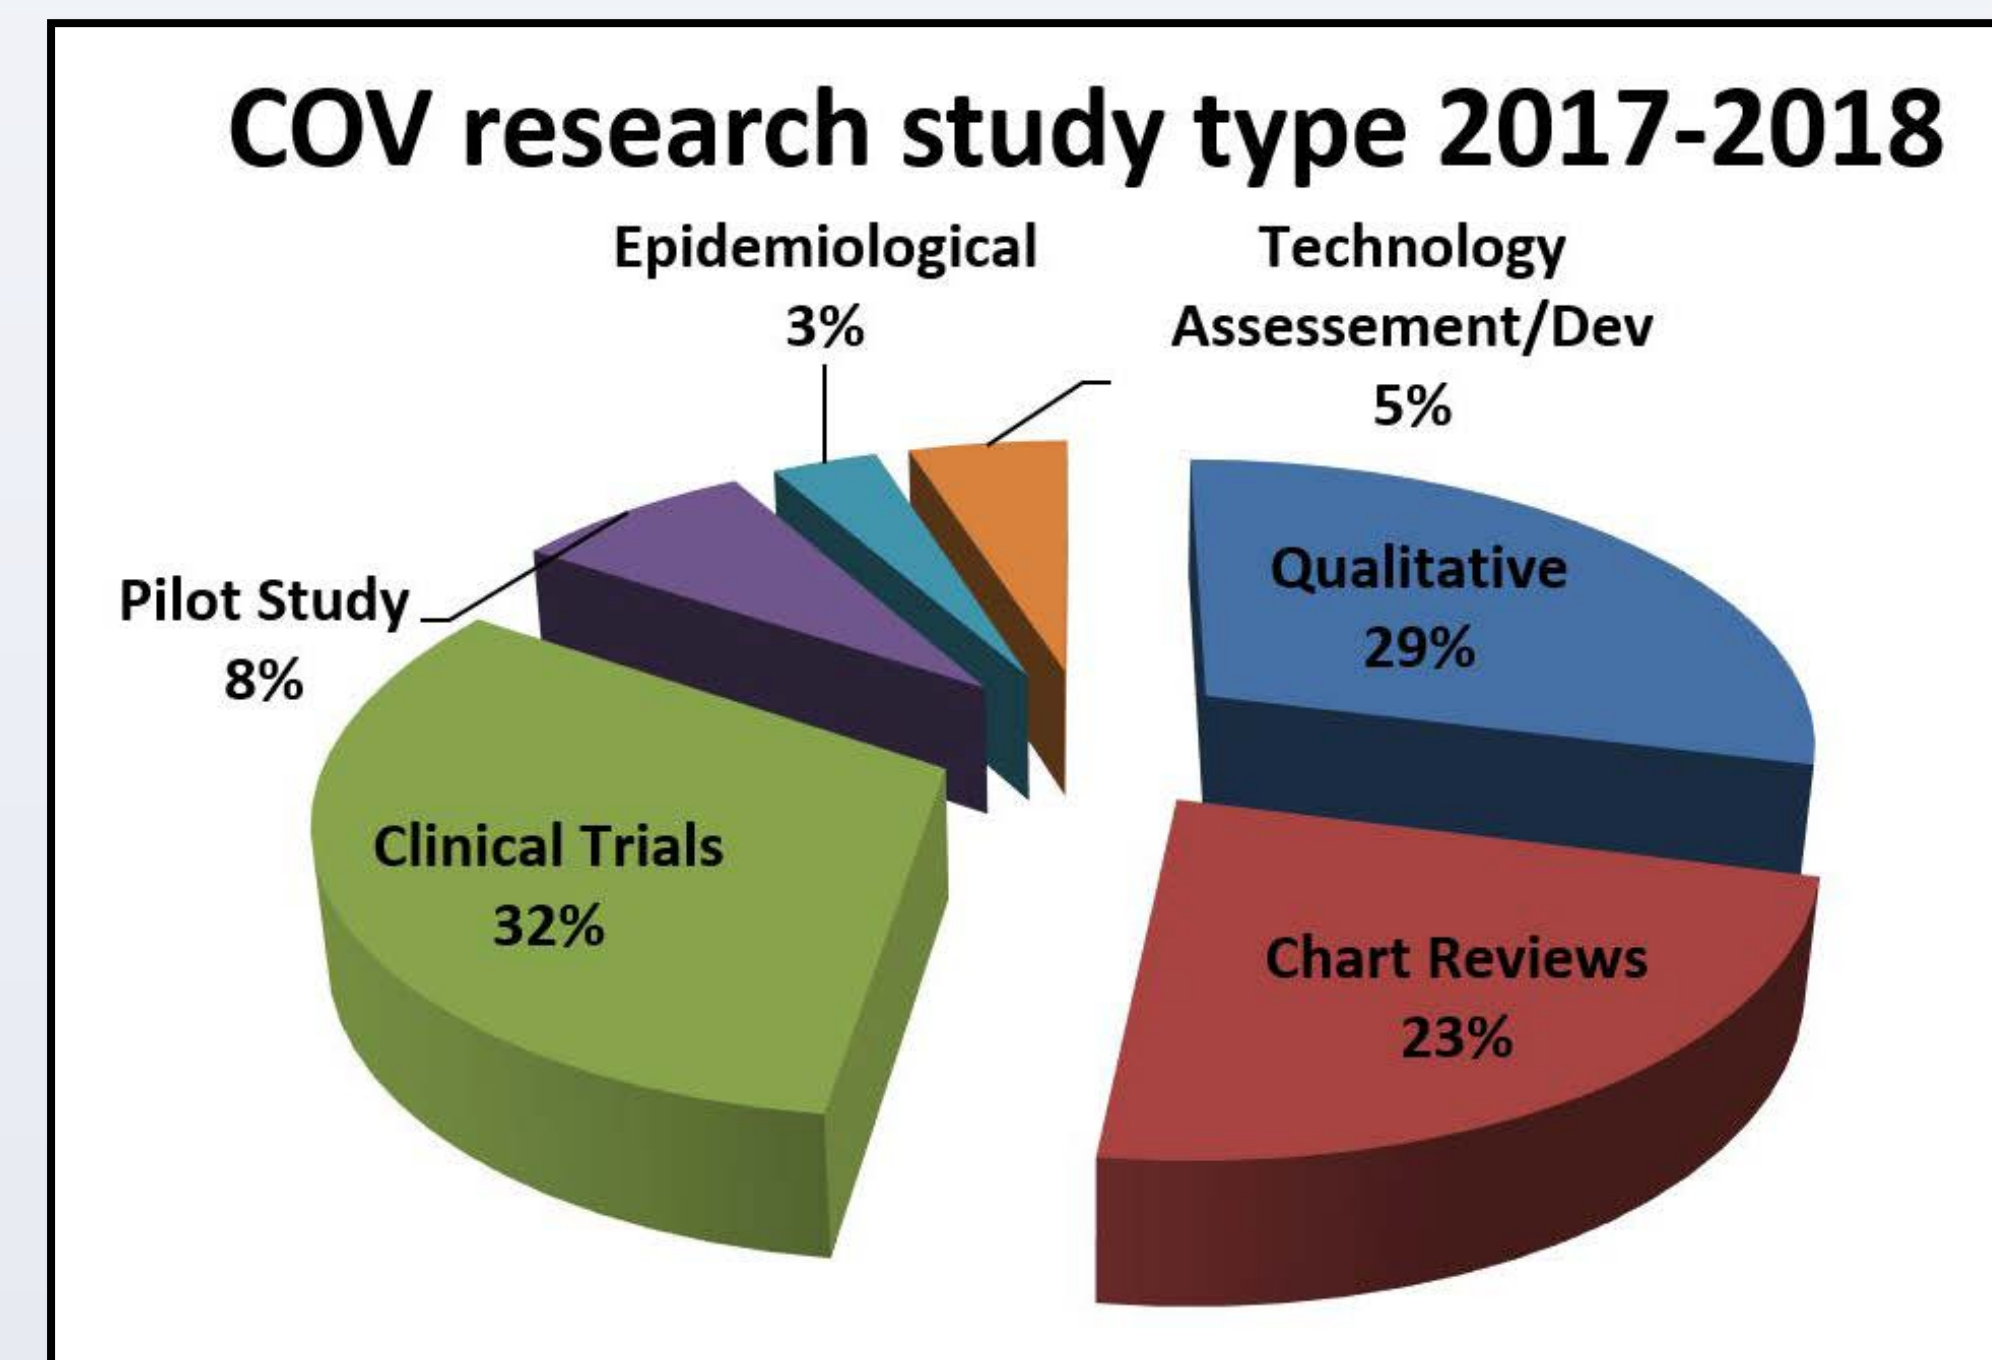

Website: covenanthealth.ca/research-centre

research@covenanthealth.ca

The CHRC consults with and assists researchers by:

- Facilitating operational/administrative approvals;
- Offering research grants and seed funding for up to \$5,000/project;
- Way-finding;
- Consultation for research proposals, grant opportunities and applications, and research dissemination;
- Assisting with the development of multi-disciplinary teams;
- Identifying and offering opportunities for research education; and
- Advocating through pan-Alberta and national research groups.

What kind of research are we doing at COV?

Since the CHRC opened in 2003:

- 1223 research studies have been approved at COV; and
- 123 research grants have been awarded, totaling \$441,905 in funding.

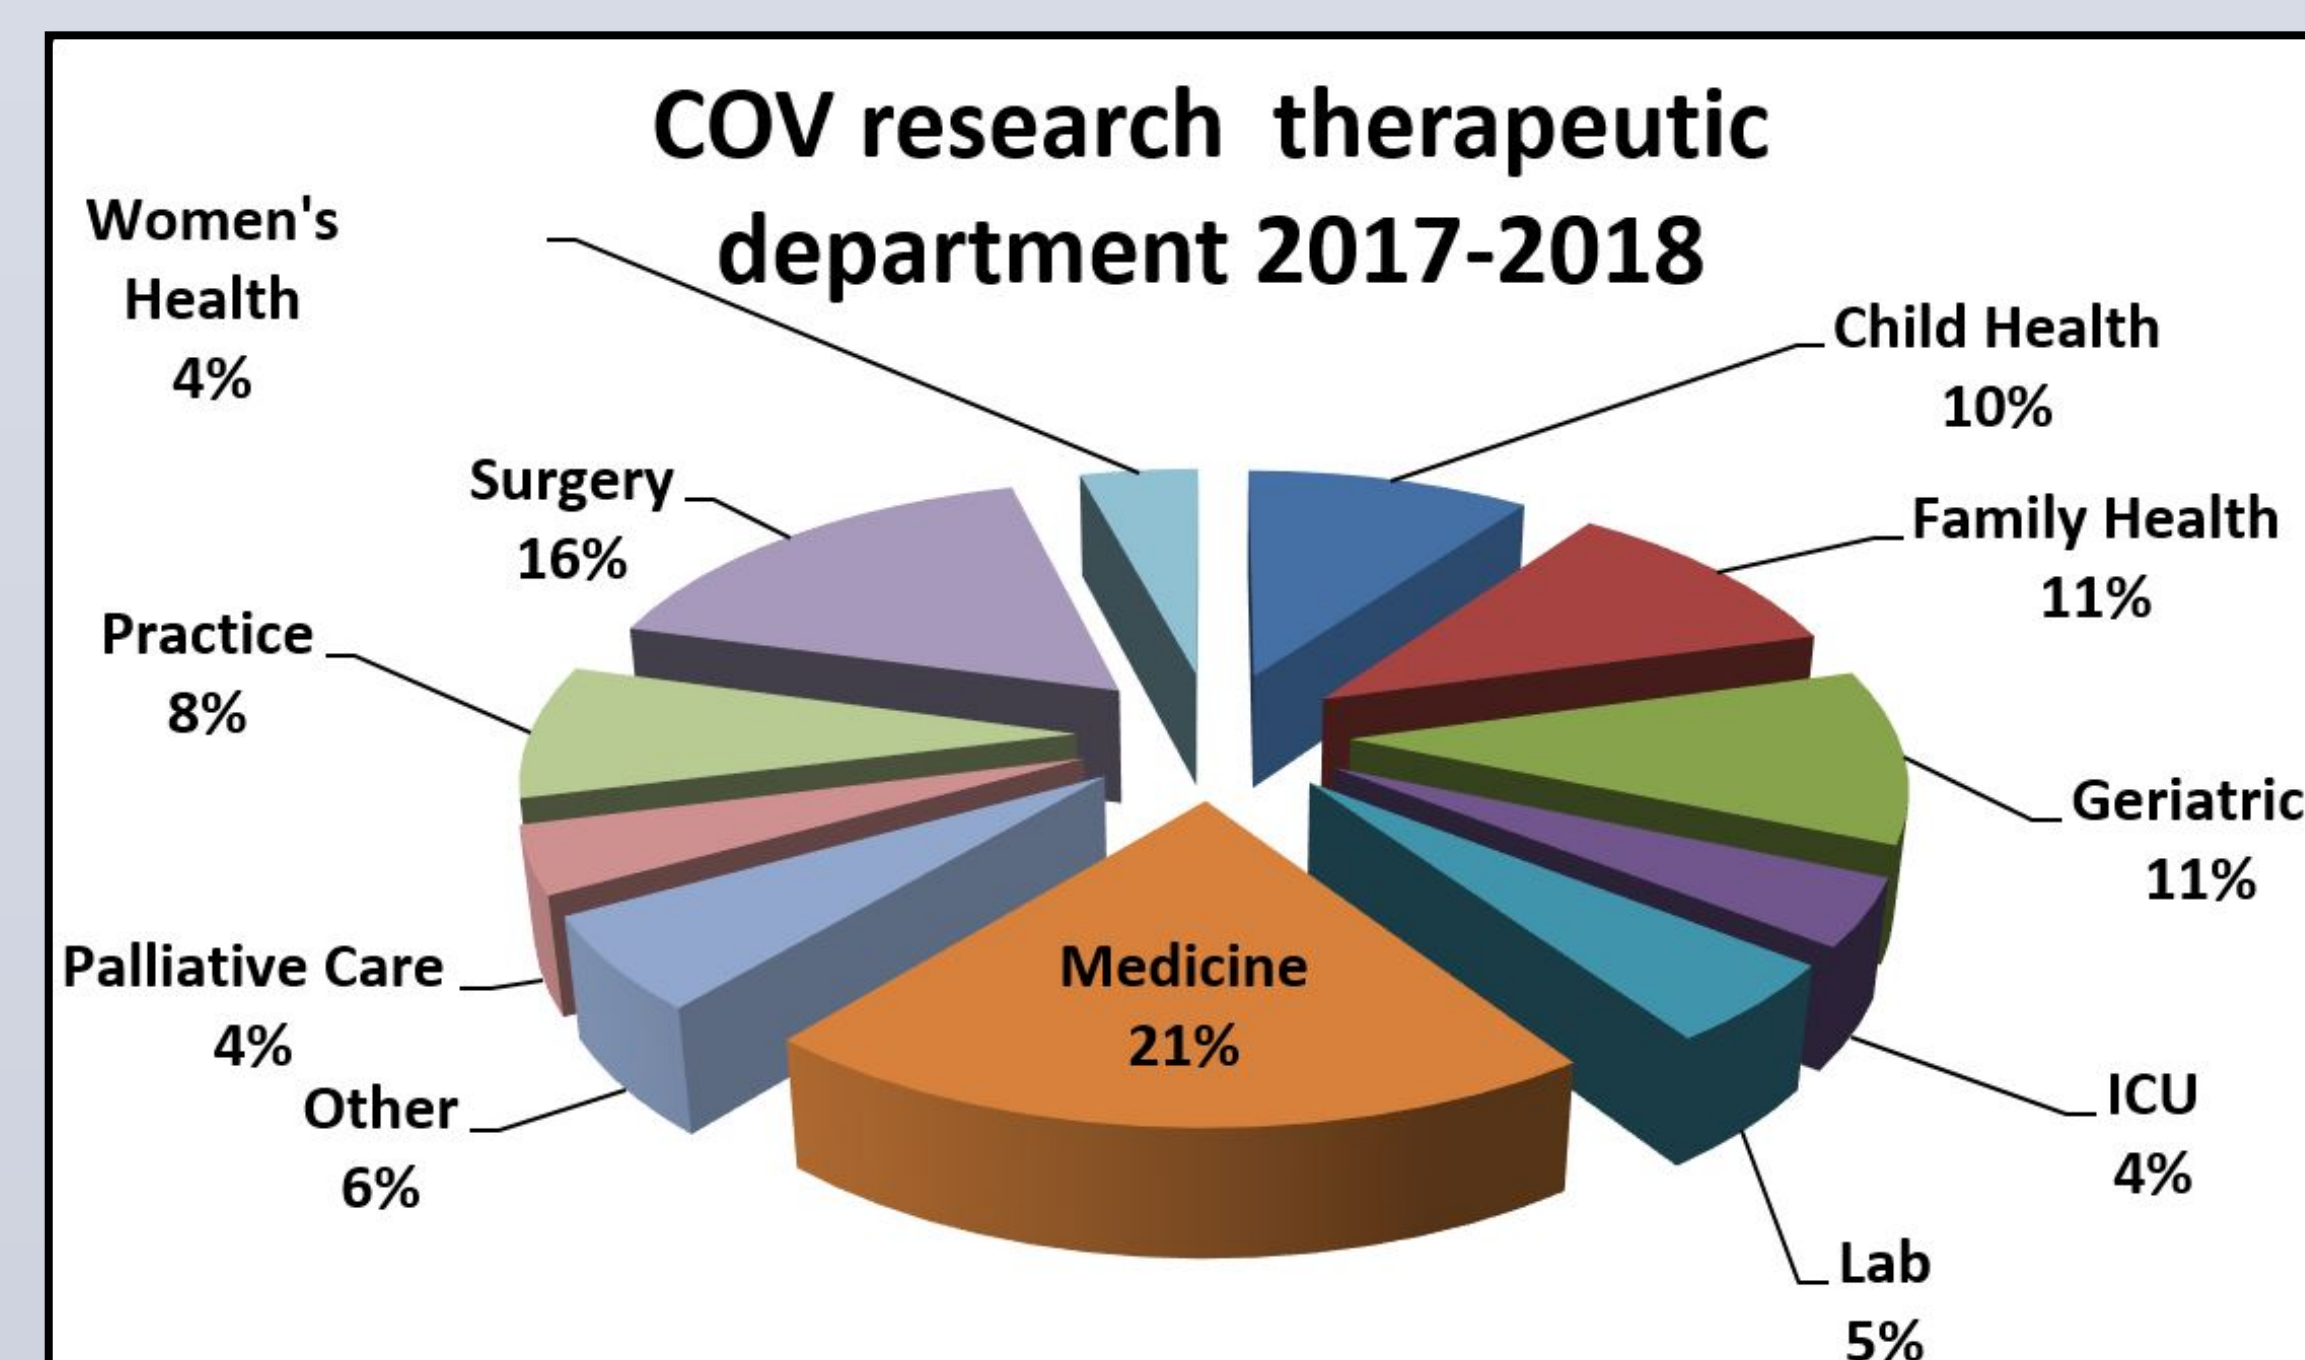

During the past fiscal year 2017/2018:

- 121 studies were approved;
- The top three service areas were 66% acute, 10% rehab, and 7% sub-acute; and
- The top three COV strategic plan objectives included 36% Serve, 26% Transform, and 21% Transform, with the top three specific choices of S2, T1, and C2 (refer to Strategic Objectives document on Compassion Net for further information).

What does research at COV look like?

In what therapeutic areas?

2019 relaunch of the publication *Covenant Health Research*

Call for Articles: *Covenant Health Research*

The Covenant Health Research Centre (CHRC) invites researchers and clinicians from all Covenant Health sites to submit an article for consideration in the publication *Covenant Health Research*.

The publication *Covenant Health Research* highlights the important research being undertaken at Covenant Health, Covenant Care, and Covenant Living sites.

Articles can take the following forms:

- Research articles
- Feature articles
- Research team profiles

For more information, or to submit an article for publication, please email researchprojects@covenanthealth.ca.

Interested in Research Training?

Collaborative Institutional Training Initiative (CITI) – CITI is an online training platform at the University of Miami. CITI Canada, in partnership with N2 Canada, provides courses for Covenant Health staff and physicians, accessible through CLiC or the CHRC website.
