HOW YOU CAN SUPPORT COVENANT TEAMS DURING COVID-19

Since the COVID-19 pandemic began, we have received hundreds of offers from Albertans who are eager to show their appreciation through donations, gifts and other thoughtful gestures. Thank you for thinking of us and for your generosity! Here are a few ways individuals and businesses can support our teams, patients and residents while helping limit the spread of COVID and protecting everyone at our sites.

DONATION TO THE COVENANT FOUNDATION

A direct donation to the Covenant Foundation is the best way to support our teams and those we serve. This way, your donation can go toward our highest priority needs. You can also direct your donation to a particular site or unit if you wish.

DISCOUNTS FOR HEALTHCARE WORKERS

Aside from donations to the Covenant Foundation, one of the easiest ways businesses can support our teams is to offer discounts to those who show their staff or physician identification.

ITEMS, SUPPLIES AND MERCHANDISE

If you wish to donate items, we ask that you send your offer to ahscovidoffer@ahs.ca so it can be properly coordinated.

Please note that while we appreciate offers to supply food and treats to our sites, we must protect the health and well-being of our teams, patients and residents. For this reason, we are unable to accept gifts of food from the public.
